

PYTHON SCRIPT

Python Script	16November 2022
Project name	IoT Based Safety Gadget for Child Safety Monitoring and Notification
Team Id	PNT2022TMID33419

The image shows two windows from a Python IDE. The top window, titled 'Sum.py - C:\Users\logha\Documents\Python\Sum.py (3.10.8)', contains a Python script that takes two numbers as input and prints their sum. The bottom window, titled 'IDLE Shell 3.10.8', shows the execution of the script. It first displays the Python version and system information, then runs a test command 'print("Hello world")'. After a restart, it executes the 'Sum.py' script, showing the prompts 'Enter number 1:' and 'Enter number 2:', followed by the output 'SUM = 15'.

```
Sum.py - C:\Users\logha\Documents\Python\Sum.py (3.10.8)
File Edit Format Run Options Window Help
a = int(input("Enter number 1:"))
b = int(input("Enter number 2:"))
sum = a + b
print("SUM = ",+sum)
